# LINER \ BACKER

## No Edge Banding Strip Required

Experience the exceptional flexibility of Operando Laminates, bending up to 180° effortlessly without cracking, ensuring durable and versatile solutions for interior design, eliminating the need for PVC edge band strips. Transform your spaces with ease, ensuring a seamless and enduring finish every time.

### GENERAL USE & CARE GUIDE:

Operando laminates are designed for easy maintenance and durability. Follow these guidelines for optimal performance:

- 1. Stain Removal:** For stubborn stains, use mild household glass cleaners like Colin. Gently wipe the surface with a non-abrasive cloth.
- 2. Avoid Abrasive Cleaners:** Refrain from using abrasive liquid cleaners, bleaches, or solvents, as they may harm the laminate surface. Clean with water and a non-abrasive cloth.
- 3. Surface Recommendation:** Glossy surfaces are best suited for vertical applications.
- 4. Thinner Usage:** Do not apply thinner to Operando laminates.

### INSTALLATION INSTRUCTIONS:

1. Before use, stir the POLYBOND adhesive and do not mix water.
2. Clean the dust particles from the surface of the substrate (plywood, MDF, chipboard) with a cloth, soft brush, sponge or sandpaper.
3. Apply the adhesive evenly with a brush, roller or adhesive spray on both the laminate and the substrate (plywood, MDF, chipboard).
4. When pressing on the laminate base (plywood, MDF, chipboard), use a soft-pressure roller or a normal pressing technique. Pressing must be done from the center of the panel and moved to the sideline and corners of the panel
5. Make sure the laminate is sufficiently pressed for almost 24-30 hours to reach full bond strength.

### Limited Warranty:

Operando Products undergo rigorous testing to ensure they are reasonably free of defects. When used and fabricated correctly, they will comply with applicable manufacturing specifications within realistic deviations. Prior to installation, we advise customers to thoroughly inspect products.

The warranty excludes defects or non-compliance due to:

- Improper handling, transportation, or storage of laminates
- Incorrect installation or unintended usage
- Lack of maintenance or exposure to high temperatures
- Unauthorized alterations or outdoor applications
- Exchanges are provided under reasonable circumstances.
- This brochure serves as a presentation guide, with actual colors potentially differing.

## Why Polymer Laminates are the Best Choice compare to other laminates?

Parameters	PVC	PET-G	ASA	ACRYLIC	POLY
<b>Best Quality + Cost Effective</b>	NO	NO	NO	NO	<b>YES</b>
<b>Eco Friendly</b>	NO	NO	YES	NO	<b>YES</b>
<b>High Gloss Life</b>	Short	Short	Medium	Medium	<b>Long</b>
<b>Durable</b>	2-3 months	1 year	1 year	2 years	<b>10 years</b>
<b>Rigid / Flexible</b>	Rigid	Rigid	Rigid	Rigid	<b>Flexible</b>
<b>Bendable</b>	0°	0°	0°	0°	<b>180°</b>
<b>Weight</b>	Heavy	Heavy	Medium	Medium	<b>Light</b>
<b>UV / Anti-Yellow</b>	Low	Low	Medium	Medium	<b>High</b>
<b>Weather Resistance</b>	Bad	Good	Good	Good	<b>Excellent</b>
<b>Heat Resistance</b>	Bad	Good	Good	Good	<b>Excellent</b>

### Disclaimer

- Plywood with high moisture content should not be used.
  - Avoid using ply with an uneven surface.
  - Inferior quality adhesive should be avoided.
  - Apply sufficient pressure during installation.
  - It is not recommended to paste sheets on the printed/branding area of the plywood.
  - Our laminates boast an anti-scratch rating of up to 3.5 hardness.
- Please handle with care for optimal longevity.

### POLYBOND Adhesive Benefits:

- Strength & Toughness:** Provides a strong and durable bond between surfaces.
- Versatile Application:** Suitable for both vertical and horizontal surfaces.
- Ease of Use:** Simple application and easy cleanup.
- Waterproof:** Suitable for indoor and outdoor projects.

**POLY BOND**  
Bond, stick forever...  
Waterproof Synthetic Adhesive  
\*Recommended Adhesive\*

Choose POLYBOND adhesive for reliable bonding and long-lasting results in your laminate installations.
